INTRODUCTION

Wind is almost entirely caused by the effects of the sun (Relationship with Christ) which, each hour, delivers 175 million million watts of energy to the earth. This energy heats the planet's surface (Clay Jar-You), most intensively at the equator, which causes air to rise (Holy Spirit). This rising air creates an area of low pressure (Your Circumstances) at the surface into which cooler air is sucked (The Holy Spirit Within), and it is this flow of air that we know as "wind". . . . the flow of air is further impacted by the rotation of the earth (Your Actions) . . . . This effect creates a sideways force which causes air to circulate (Leading and Guiding of The Holy Spirit).
